TOP 3 TERPENES	FORMATS
MYRCENE	3.5G
LIMONENE	
CARYOPHYLLENE	

EastCann Pink Kush is an Indica dominant Legacy Genetic of predominately unknown origins

The heritage of this heavy indica is a little uncertain, but it's known to be a relative and possibly an offspring of the legendary OG Kush, one of history's most popular strains. This strain lives up to its name with amazing coloration and a powerful high.

EastCann dried flower is packaged in nitrogen-purged, food-grade recyclable cans.

This type of packaging utilizes a purge of liquid nitrogen and hermetic seal to maintain freshness and preserve the dried flower quality and terpene profile.

Jegacy Matters.
