EastCann Hippie Headbanger is a high THC Sativa Dominant hybrid of Sour Diesel X Biker Kush

Pheno hunted and grown by Josh Beckett, a long time cultivator on Saltspring Island. Grown and developed for years on Saltspring Island, this particular pheno boasts of high potency and heavy resin, with flavours of gas combined with sweet and sour citrus notes. This flower has been finished in true gulf island fashion, carefully cured over a 3 week period and hand trimmed to leave small sugar leaves left intact so connoisseurs can experience this flower as nature intended. Experienced consumers say this packs a powerful punch!

EastCann dried flower is packaged in nitrogen-purged, food-grade recyclable cans.

This type of packaging utilizes a purge of liquid nitrogen and hermetic seal to maintain freshness and preserve the dried flower quality and terpene profile.

Legacy Matters.
